

Mobile Wallet: A Better Way to Pay

Your money is **mobile!**

Sentry Credit Union offers a safer, faster way to shop with your SCU Visa® debit and Visa credit cards: **Pay with your phone using mobile wallet!**

Did you know? Paying digitally is more secure because the payment involves a single-use code – so your name, card number and security code stay protected. Add your SCU cards to your mobile wallet and pay merchants in stores, online and within apps.

Mobile wallet is easy to set up and use:

- » Open the mobile or digital wallet on your device (Apple®, Google™, Samsung®, Garmin® or Fitbit®).
- » Follow the instructions to add your SCU card information.
- » Once it's ready to go, simply swipe your phone over the point-of-sale terminal at any participating merchant.

Leave your physical cards safe at home with mobile wallet!
